**Apple Media Services:
Testflight Data History - Sessions**

June 2019

File name Testflight Data History-sessions.csv

File description This is a list of dates for each time the customer has used a beta app

Why Apple keeps this information Beta app sessions are collected so that Apple can let the app developer know how often their beta apps are being used.

Field Name	Details
appAdamId	Apple's unique identifier for the subject
periodInterval	Data identifying the interval of the data (e.g. daily, monthly, et al.)
periodStart	Start date for the period.
periodValue	Value for the specific metric in the given period.
